—The case of W. S. Cook against G. M. Schuurmeier, which grew out of an automobile accident in Canfield some months since, was up for hearing in Justice Manchester's court Monday forenoon. —One day recently C. H. Hine discovered a rabbit sitting in a clump of grass on James Leonard's farm northwest of Canfield. He asked Mr. Leonard to take a shot at bunny after he started the game. Out went the rabbit and Mr. Leonard blazed away, but the rabbit kept going. He could not understand why he had missed such an easy shot and went into the field to investigate. Imagine his surprise to find near where the rabbit was last seen, a number of dead quail; but he had not killed them. The job evidently had been done by a "pot hunter" who died after shooting through fear of discovery and prosecution.

—Wise-Ferrall Wedding.

—Winter Haven, Fla., Dec. 4, 1916. Monday evening 7:45 at the Methodist parsonage, Rev. J. C. Hardin united in holy wedlock Mr. H. H. Ferrall and Eva C. Wise of Canfield. Mr. Ferrall, brother of the bride, was the matron of honor, beside her sister, Miss G. Ed. Buzard. Standing beside Mr. Ferrall was his young son, Charles Leslie. It was a happy, pretty, and very impressive wedding. The fine ceremony was used. From this, we judge that Ohio is all right, and that Florida is all right too, when people like these good people come all the way from their northern clime, not simply to spend their honeymoon, but to get married amidst the balmy breezes kissed by the southern sun and made sweet by the rich perfume from the flowers in "Land of Flowers."

—Useful Presents. Make your boys happy with one of Wiesner's Mackinaws or Sweater Coats, Fine Suits and Overcoats at a saving price. Call and see them.

To the Parents of Canfield Township

Nothing is more vital toward the success of your boy's work in school than attendance.
The work of a pupil in school may be likened to his building a brick wall which he does by adding one brick each day. But if he misses a day the brick lost can never be replaced, consequently each day missed makes a gap in his wall of learning. He finds that succeeding lessons are not understood because back there he missed a lesson, a knowledge of which is necessary in learning the lesson before him.

Estimating the work of a pupil in figures consider the following: Suppose that in the past month which consisted of eighteen days a pupil was absent three days. Considering that his work while in school was perfect (which is rarely the case) he could not possibly have done more than five-sixths of the work he might have done. His grade for the month could not possibly be over 83%. He has done only 83% of the month's work but the worst feature of it is, he has been handicapped for the remainder of his school life.

Remembering these things let us hope that the parents of the boys and girls in Canfield township will see to it that their boys and girls are in school each day health permits them to be there.

Sincerely,
T. M. ROBINSON.

ADVICE TO PARCEL MAILERS

The approach of Christmas makes timely suggestions offered by the postoffice department regarding the mailing of packages, viz:

—Wrap packages securely. Avoid flimsy wrappers, such as used store paper. They will come off in ordinary handling. Use strong twine and the securely. Tie around both ends and through the center.

—Address plainly. All parcels must bear the sender's name and address in the upper left hand corner of the parcel. Fasten an extra piece of paper to the contents giving the names of the sender and addressee. This is for the purpose, that if the wrapper should accidentally become separated from the contents the latter may be restored to the owner.

—Affix sufficient postage. Do not include written matter in the nature of correspondence.

—Do not mail parcels in street boxes, but takes them to the postoffice or inform the postal clerk of the exact postal stations. Have them weighed and properly rated. Upon request, give contents in order that he may deliver mine how it shall be packed and indorsed.

COUNTY APPLE SHOW PRIZE WINNERS

A great many people took advantage of the apple show under the auspices of the Mahoning County Horticultural Society and saw almost every kind of apple that can be grown in this neighborhood on display. Although the show fell short in the number of people who had apples on exhibition it proved a success and something that the apple growers of the county can feel proud of. J. B. Kell of the Ohio Experiment station at Wooster, who judged the apples, said it was one of the best shows he has attended in the state and that he had been present at every one this year. Officers of the show are expecting a great deal of good to result from the exhibit and plans are now under way for a more extensive and elaborate display next year.

One hundred and seventy-five dollars went to eleven premium winners. First premium received one dollar, second, six cents and third, forty cents. The prize winners were:

F. Lee Sheppy, 172 N. Halsted St., Chicago, Ill., General Sales Manager of the largest concern of its kind in the world, wants three or four men in Mahoning County and several men in adjoining counties, to work for him spare time or all the time. He can use only those who have a rig or auto. Work is very pleasant and no previous selling experience is necessary. Work consists of leaving a wonderful new household necessity in the homes on free trial. Tests at more than thirty of the leading universities and the Government Bureau of Standards show this new article to be four times as efficient as article now in general use in this section. Article is needed in every rural home and benefits every member of the household, bringing cheer, comfort and happiness into the home. Not necessary to be away from home at all times. Pay from \$6.00 to \$15.00 per day according to ability and number of homes visited. In writing Mr. Sheppy, mention what townships will be most convenient for you to work in; what your regular occupation is; your age; married or single; how long you have lived in the community; what kind of a rig or auto you have; whether you wish to work spare time or steady; how much time you will have to devote to the work; when you can start, and about how many homes are within six miles of you in each direction. This is a splendid opportunity for several men in Mahoning county and counties adjoining to make good money, working steady or spare time. Some of the field men earn \$300.00 per month; one farmer earned \$1,000.00 working spare time only. No investment or bond necessary.—adv.
